

BUTTON ATTACHMENT AND SECURITY SPECIALISTS SINCE 1994

NEW MK 22

Automatic button shank feeding & wrapping machine

WORLD'S FIRST WRAPPING MACHINE WITH AUTOMATED FEED

- **Unique feed through design**
= Fantastic efficiency

- **Fully automatic feeding of buttons**
= Productivity savings as operator only required for loading. The machine will wrap and eject any button in the magazine automatically.

- **Fully automatic wrapping**
= Consistent perfect quality wrapping not affected by poor operator handling

- **NO RFID Yarn Recognition System (YRS)**
= Free to use any suitable TF thread

- **Manufactured in the UK from the highest quality components**

PATENT PENDING

Simply load buttons into the magazine and the machine will do the rest!

MMS UK continue to be the leaders in button securing machine development!

MMS

TF Thread

MMS TF Button Shank Wrapping Thread

22g and 220g

One of the most visible and obvious areas of quality on a garment is the button attachment. If a button falls off the garment is compromised as is the image of the brand. Conventional sewing thread solutions for button security are messy and unreliable and do not prevent buttons from falling off. The MMS button securing system has been designed and developed over 20 years to provide the finest solution for ensuring that buttons will not fall off a garment.

**10%
EXTRA**

MMS TF thread the ideal partner to the MMS range of machines for button security on every garment from shirt to raincoat.

Standard wrapping thread - 20g & 200g cones

MMS TF Thread - 22g & 220g cones!

- The highest quality components guarantee button security which enhances the garment
- Manufactured to be 100% consistent to ensure a perfect shank appearance with soft finish
- Fusible component and highly elastic core ensures maximum button security with no loose ends
- Tested and proven to withstand the rigours facing every type of button attachment over the lifetime of the garment
- Certified by Oeko-Tex and colour fast to washing, dry cleaning, perspiration

MMS TF thread is proven and specified by major brands worldwide.
