VMS-K3-09

自动间领袖口机

平缝机自动化缝纫，精准快捷、高速运作、噪音低

Automatic lockstitch sewing, Accurate and fast, High speed operation, Low noise

产品特点 Features

1.采用自动升降收料装置。

It adopts automatic lifting and receiving device

2.采用自动检测针距系统。

Adopt automatic needle length detection system

3.衬衫极速间领线 13 秒/件。

Shirt extreme speed collar line 13 seconds / piece.

4.规范的完美线迹，智能化一次完成并自动整理收料，脱技能省人工，实现一人操作多台机器。

Standardized perfect stitches, intelligently complete at one time and automatically sort and collect materials, save skills and labor, and realize one person to operate multiple machines.

5.自适应领线对角线功能，间线边&角齐整一致。

Self-adaptive neckline diagonal function, the edges & corners of the line are neat and consistent

6.适用于衬衫的领和袖口边线0.15-0.06压线。

Applicable to the collar and cuff edges of shirts 0.15-0.06 crimping
